

GIVING EVERYONE PEACE OF MIND

For families, KISA Guardian provides the greatest reassurance, offering the confidence that their loved one is protected, connected, and supported around the clock. For the user, it delivers the freedom to live independently and with confidence, backed by the security of fast, reliable emergency response.

- **Fall Detection** – instantly alerts emergency contacts when a fall is detected, even if you can't press the button.
- **GPS Tracking** – provides precise location during emergencies for faster response.
- **24/7 Monitoring** – professional monitoring ensures help is dispatched quickly when needed.
- **Reminder Service** – receive reminders about everyday tasks through easy-to-set voice alerts.
- **Reduces Frustration** – no screens or menus keeps functionality simple and straightforward.

With KISA Guardian, safety comes first, giving everyone peace of mind.

KISA P/L is an associate provider within Support at Home program. To purchase KISA products through the program please contact your registered Support at Home provider.

KISA Guardian is compliant with aged care standards program as a personal emergency alarm system (ISO 22 29 06) and/or localisation and tracking systems (ISO 22 29 12) and funded under (AT-HM) scheme, prescribed category.

KISA GUARDIAN DESIGNED TO KEEP YOU SAFE

KISA Guardian is a personal emergency alarm and 24/7 monitoring device designed for seniors who want to live independently while staying safe at home or in aged care. It provides reliable support for those at risk of falls, medical incidents, or anyone seeking the comfort of knowing help is always within reach.

Easy to Use

No screen, complicated menus, or apps. Just one button per contact for instant emergency communication.

Volume Control

Adjust the call volume using dedicated buttons.

Auto-Loudspeaker

The KISA Guardian can be set to answer all calls in loudspeaker mode.

Essential User Information

Include vital personal, health and contact info on the back panel.

SOS Button

When pressed, connects users with 24/7 monitoring service or emergency services.

Tactile Buttons

Large mechanical tactile buttons can be customised with any text or images.

Charging Cradle

Convenient and easy to use for people with dexterity issues.
