WHY KISA PHONE?

Colourful, robust, yet lightweight, a KISA phone is the best way to help keep your child safe. GPS tracking allows you to track your child's location, while customisable pre-set contacts give your child the convenience of a mobile phone without the worry of your child contacting unknown people. The dedicated SOS button calls emergency services as well as sends you an SMS, helping your child be safe at all times.

The lack of Internet access, SMS or camera make KISA phones ideal for schools and playgrounds as they offer no distractions to lessons. Our regular spend alerts help monitor your child's monthly spends, helping avoid bill shock.

WHO CAN BENEFIT FROM THE KISA PHONE?

It is perfect for parents who wish to protect their kids from cyber-bullying.

Your child will appreciate being able to reach you at any time and you will feel confident that you can stay in touch with your loved one using the KISA phone!

WHERE DO I GET MY KISA PHONE?
